Fill in the blank squares so that each row and each column contain all of the digits 1 thru .

The heavy lines surround areas (called cages) that contain groups of numbers that can be combined (in any order) to produce the result shown in the clue, either using addition (+) or subtraction (-) as shown in the clue. For example, 12+ means you can add the values together to produce 12.

Numbers in cages may repeat, as long as they are not in the same row or column.
